

STRUCTURAL

INTEGRATION BODYWORK

Princeton*SI

Thank you for giving a few minutes of your time to complete this form. Learning about your experience at Princeton SI will help to improve your (and future clients experiences) at this practice. All information will be held in confidence, but if you would care to offer words of testimonial at the end, that would be greatly appreciated.

I invite your comments on the following points, or just mark as follows:

4 = needs improvement

3 = competent

2 = good

1 = excellent

1. What brought you to Princeton Si to have Structural Integration Bodywork? i.e. What were your challenges and goals?
2. How has this work/ your practitioner helped you to accomplish these goals? How could this be improved?
3. Was your history covered (to your satisfaction), including previous and current conditions?
4. Did you feel listened to and understood by your practitioner?
5. Did your practitioner help you to understand what to expect from Structural Integration (SI) Bodywork? i.e. Did your practitioner adequately explain the purpose of SI bodywork, as well as, the process by which, the Series (or sessions) take place?
6. Did your practitioner adequately explain when and why it was necessary to work on particular regions of your body at particular times throughout your sessions (to your satisfaction)?

7. What about your practitioners explanations did you find helpful (or not) during this work? How could this be improved?

8. What was your experience of your practitioner's touch skills?

9. Please rate your experience of the office of Princeton SI? i.e. Cleanliness, tidiness, atmosphere, etc?

10. Do you have any additional comments to offer that could improve the experience at Princeton SI?

11. If you would like offer comments to be used as testimonial for this practice, please let me know {only first name and last initial will be used}.

I would be grateful if you could speak to:

- When you chose Structural Integration bodywork, what were your goals for undertaking this work?
- What were the benefits you received as a result of having had Structural Integration bodywork? i.e. How has this work helped you in your everyday life and activities?
- Would you recommend this work to others?
- Anything else you feel that would be helpful for others to know about Structural Integration Bodywork; For ex: How you found it differs from other forms of manual therapies you may have previously experienced, etc.
